SB2504/HB2279 Competitive Wireless Broadband Investment, Deployment, and Safety Act of 2018.

Sponsors: Sen. Ketron, Bill , Rep. Lamberth, William
Summary: Enacts the Competitive Wireless Broadband Investment, Deployment, and Safety Act of 2018, which desires to maximize investment in wireless connectivity across the state by creating a uniform and predictable framework that limits local obstacles to deployment of small wireless facilities and to encourage shared use of public infrastructure and colocation in a manner that is the most technology neutral and nondiscriminatory. Prohibits a municipal authority to restrict the size, height, or otherwise regulate the appearance or placement of small wireless facilities. Requires any applicant, a person who is seeking a permit to install a small wireless facility, to replace existing authority-owned utility poles and must reasonably conform to the design aesthetics of the utility pole being replaced. Allows an applicant up to include up to 20 small wireless facilities within a single application to an authority. Requires the authority to determine whether an application is complete and notify the applicant within 10 days of receiving an application and must approve or deny an application within 60 days of receipt of the application.

Amendment Summary: House Business & Utilities Subcommittee amendment 1 (013337) removes the definition of and references to a "utility pole" and adds the definition of and references to a "potential support structure for a small wireless facility" or "PSS."
