

How to Become a Certified TREEF Instructor

Those interested must first become an approved instructor through TREC.

Those interested in joining our team of instructors must find a “home,” a specific course with a local REALTOR® Association, and submit a resume to one of them to be considered for hire. To be hired, speak with your local Professional Development Director or Association Executive.

Once a local REALTOR® Association has hired you, your resume and credentials will be sent to TREC to be added to an approved course.

At that time you will also be added to TREEF's instructor list featured on the Tennessee REALTORS® website. To ensure our instructors are developing their teaching skills, TREEF will offer workshops that will focus on adult learning methods and smart delivery options in the classroom.

Finally, you must complete the TREEF Train the Trainer course offered by Tennessee REALTORS. Instructors must maintain training by attending the Instructor Development Workshop (IDW) once every two years.
